

Specifications

• **Open-loop stroke: 200 μm @ 150V (fixed-free)**

*Tolerance value: 150~250 μm

• **Operating voltage: -20 V ~ +150 V**

• **Stiffness in motion direction: 0.085 N/ μm**

• **Resonance frequency(fixed-free): 700 Hz**

*Tolerance value: 525~875 Hz

• **Blocked force: 17 N (*Tolerance value: 13~21N)**

• **Capacitance: 0.32 μF**

• **Dimension: 22x8x8 mm**

• **Mechanical interface: 2-M2.0 Tapped hole at both sides**

• **Environment: 0 to 85°C with humidity less than 40%**

• **Mass: 5.6 g**

*All dimensions and specifications stated are nominal.

Option:

• Mechanical interface can be tailor with an addition option fees.
